About Wilson Pro AVL

At Wilson Pro AVL, we are blessed to have a team of dedicated and experienced professionals who understand the unique needs of houses of worship. Our skilled sound engineers, video technicians, camera operators, production coordinators, lighting designers, and more, bring a wealth of expertise and a heart for ministry to every project. We are committed to providing compassionate and qualified support, ensuring your services and events run smoothly and effectively. Furthermore, we have access to modern and reliable equipment, allowing us to deliver high-quality productions that enhance your message and create a meaningful experience for your congregation, whether it's for in-person services or online streaming. Our team is here to serve you and help your ministry's vision come to life.

About Company

Ministry AVL Made Seamless.

WilsonProAVL understands the importance of good stewardship and offers cost-effective AVL solutions for your house of worship by operating with an efficient overhead and drawing upon our network of experienced professionals who are passionate about serving ministries. By partnering with Wilson Pro AVL, you gain access to a wealth of experience and high-quality AVL services without the burden of excessive costs or the long-term commitment of a full-time, in-house team. Our streamlined approach and reliance on dedicated professionals are designed to deliver exceptional results for your services and events while respecting your ministry's financial resources.

Message from the **CEO.**

Wilson Pro AVL latest news

Mike Wilson, a recognized expert in the Audio-Visual and Lighting (AVL) field, has recently been announced as a new consultant for Worship Leader Magazine.

This exciting development signifies a valuable addition to the magazine's resources, offering readers direct access to Wilson's extensive knowledge and insights on optimizing AVL systems for worship environments. His expertise will undoubtedly provide invaluable guidance to churches seeking to enhance their technical capabilities and create more impactful worship experiences.

37+

Years Experience

Mike Wilson

Mike Wilson
CEO. & founder

"It fills me with joy to extend the dedication and expertise I've cultivated in the worship AVL world to fellow houses of worship through Wilson Pro AVL. Over the years, I've witnessed firsthand the profound impact that well-executed audio, visual, and lighting can have in creating truly meaningful and engaging worship experiences. I firmly believe that every church, regardless of its size or resources, deserves access to high-quality AVL solutions that enhance their services, events, and overall ministry."

"What truly inspires me about Wilson Pro AVL is our commitment to providing premier services at a cost that often allows us to serve within the budgets of many congregations. We've thoughtfully structured our operational model with stewardship in mind, focusing on wise resource management and drawing upon our network of experienced professionals who share a passion for ministry. This enables us to deliver exceptional results without the significant overhead that can burden other providers. Our aim isn't simply to offer AVL; it's to make it accessible and affordable, empowering churches to amplify their message and connect with their community without undue financial strain. We are confident that our blend of deep understanding of worship needs and cost-conscious practices offers a valuable partnership for churches in Lincoln and beyond, and I'm eager to help your ministry experience the difference."

What We Do

AUDIO

Worship audio services encompass the planning, provision, and operation of sound systems and related technologies for church services and events. This includes ensuring clear and consistent audio for sermons, music, readings, and congregational gatherings through equipment like microphones, speakers, mixing consoles, and audio technicians. The goal is to deliver impactful and clear sound that enhances worship, understanding, and connection within the congregation.

VIDEO

Worship video services involve the planning, provision, and operation of visual technologies and content creation for church services and ministry events. This includes ensuring clear and engaging visuals for sermon illustrations, song lyrics, scripture readings, and online streaming through equipment like projectors, screens, LED walls, cameras, video switchers, and video technicians. The goal is to deliver impactful and accessible visual experiences that enhance worship, learning, and outreach.

LIGHTING

Worship lighting services encompass the planning, provision, and operation of illumination and visual enhancement for church services and events. This includes designing and implementing lighting systems for the sanctuary, stage, and special programs using fixtures, consoles, and technicians. The goal is to create an atmosphere that supports worship, highlights key elements, and enhances the overall visual experience for the congregation.

Testimonial

“Our church was looking to upgrade our outdated AVL system, and we couldn’t be happier with our decision to go with Wilson Pro AVL. From the initial consultation, it was clear they had a deep understanding of the specific needs of a worship environment. They took the time to listen to our concerns and goals, and they designed a system that has truly transformed our services.

The installation process was smooth and professional, and the team at Wilson Pro AVL was a pleasure to work with. But what really sets them apart is their ongoing commitment to their clients. We were amazed by the level of training they provided for our volunteers, ensuring that we could confidently operate the new system. And their support has been outstanding – they’re always responsive and helpful whenever we have questions.

Thanks to Wilson Pro AVL, our congregation is more engaged than ever before. The clarity of the sound, the quality of the video, and the overall experience have enhanced our worship services in ways we never thought possible. We highly recommend Wilson Pro AVL to any church looking for a reliable and knowledgeable AVL partner.”

Our Brands

At Wilson Pro AVL, we understand that a meaningful and impactful worship experience relies on the reliability and performance of its Audio-Visual and Lighting (AVL) infrastructure. That's why we are committed to utilizing top-tier, industry-leading brands across all aspects of our AVL solutions for your church services and events. This thoughtful choice ensures not only exceptional quality and performance but also minimizes the risk of technical difficulties, allowing your ministry to focus on delivering its message and connecting with your congregation.

Why Use Us

When you're considering a new AVL system for your church, choosing Wilson Pro AVL offers several key advantages rooted in our deep understanding of worship environments and our commitment to providing reliable and impactful solutions.

We Understanding of Your Needs:

We're more than just an outside provider. We take the time to understand the unique character and needs of your church. We listen carefully to your specific vision, the acoustics of your sanctuary, your technical requirements, and your budgetary considerations to design a system that truly fits your ministry.

Ministry-Focused Approach:

Unlike companies solely focused on corporate AVL, we have a genuine passion for serving houses of worship. We understand that your AVL system isn't just about technology; it's about enhancing worship, amplifying your message, and creating a welcoming and engaging environment for your congregation. Our recommendations are always made with your ministry goals in mind.

Reliable and High-Quality Solutions:

We partner with top-tier AVL brands to ensure that your new system is not only high-performing but also reliable and built to last. This minimizes the risk of technical issues during crucial moments of your services and events, allowing you to focus on what matters most.

Cost-Effective Stewardship:

Our overhead allows us to offer competitive pricing without compromising on the quality of equipment or our services. We are committed to helping you make the most of your budget and providing solutions that offer long-term value for your ministry.

Experienced and Dedicated Team:

Our team comprises experienced professionals who are not only skilled in AVL technology but also understand the unique demands of church productions. We are dedicated to providing excellent service from the initial consultation and design to the installation, training, and ongoing support. We're here to be a trusted partner for your ministry's technical needs.

Long-Term Support and Partnership:

We believe in more than just installing a system. We are committed to building long-term relationships with the churches we serve. You can count on us for ongoing support, maintenance, and any future upgrades or expansions you may need.

Choosing Wilson Pro AVL means partnering with a team that understands your heart for ministry, offers reliable and high-quality solutions, and is dedicated to helping you create impactful worship experience.

Vision & Mission

→ Our Mission

At WilsonProAVL, we deeply understand the unique needs and financial considerations that churches face when seeking reliable and cost-effective audio-visual and lighting (AVL) solutions. That's why we offer premier services with a heart for ministry, ensuring that every house of worship has the opportunity to bring its services and events to life beautifully and effectively. We believe that every church should have access to high-quality media and event production services that enhance their message, and we are committed to delivering exceptional results at prices that respect your stewardship. Our goal is to make it easy for churches to find the support they need to thrive in their ministry through impactful AVL.

**We got you
covered**

At WilsonProAVL, we are deeply committed to delivering the highest-quality results possible for your worship services and ministry projects. Whether you require assistance with system integration, video production for streaming, enhancing your online presence, or any other type of AVL need for your church, our team possesses the expertise and resources to help your message resonate and your ministry thrive.

→ Our Vision

At WilsonProAVL, we believe that every house of worship, regardless of its size or resources, should have access to the AVL services needed to effectively carry out its ministry. We strive to make these services affordable and accessible to all, ensuring that no church has to compromise on quality due to budget constraints. Our team is dedicated to helping churches succeed through the use of innovative and cost-effective media and event production solutions. Our focus is always on delivering the best possible results to support your worship services and outreach.

Our Design Process

When Wilson Pro AVL utilizes Capture lighting software, it's all about providing you, the customer, with a highly accurate and realistic preview of your lighting design. Here's how they achieve that:

Visualizing the Design:

Capture creates a 3D virtual representation of your venue. This allows you to see exactly how the lighting will interact with the space, including walls, ceilings, and other architectural elements.

You'll be able to see the placement of lighting fixtures and how the light will be distributed throughout the room.

Realistic Lighting Simulation:

The software simulates real-world lighting behavior, including color mixing, beam angles, and intensity. This means you'll get a very accurate representation of how the lighting will look in person.

You can see how different lighting effects, such as color washes, spotlights, and moving lights, will appear in your venue.

Making Informed Decisions:

By visualizing the lighting design in advance, you can make informed decisions about fixture placement, color choices, and lighting effects.

This helps to avoid costly changes or surprises during the actual installation.

Enhanced Communication:

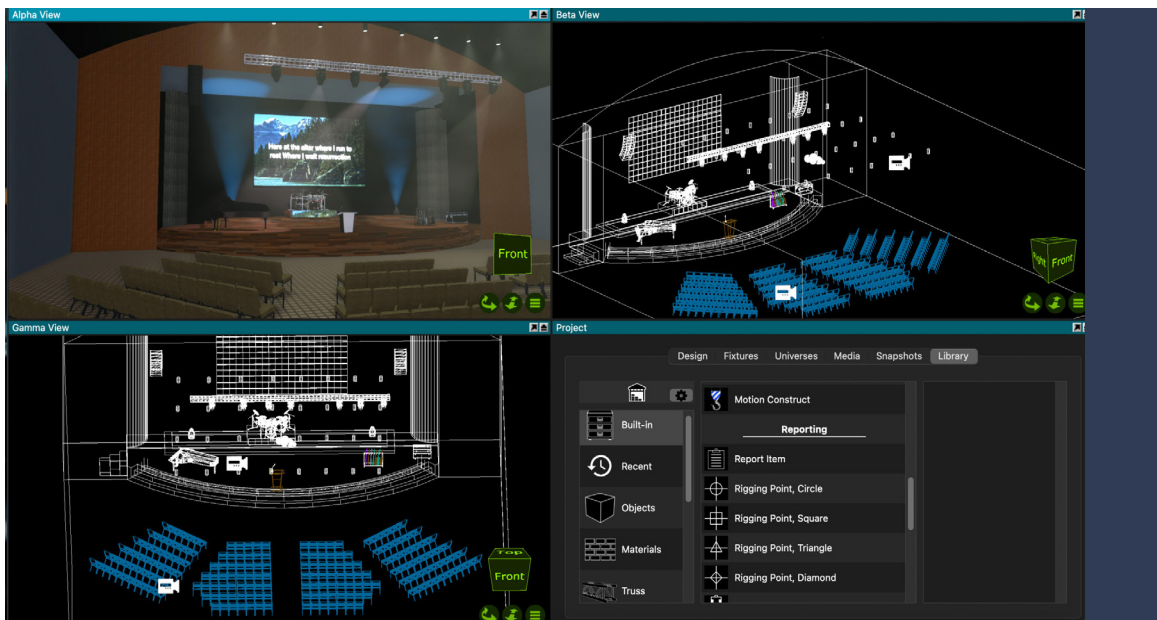

Capture allows Wilson Pro AVL to effectively communicate their design ideas to you.

You can see and understand the proposed lighting scheme, ensuring that it meets your expectations.

Pre-Visualization of Events:

If the lighting is for a performance, or event, the lighting designer can pre-program and show you exactly what the lighting will look like during the event. This allows for fine tuning, and a great deal of client confidence.

In essence, Capture transforms abstract lighting concepts into tangible visuals, empowering you to see and approve the design before any equipment is installed. This process leads to greater client satisfaction and ensures that the final lighting installation meets your specific needs.
